25X1A Attention: ███████████████
Contracting Officer

25X1A Refer to: ███████████

Subject: Proposal for Additional Engineering Effort

25X1A Reference: Task Order No. 17 ████████████

25X1A Gentlemen: # DECLASS REVIEW by NIMA/DOD

████████████████████████████ is pleased to submit this pro-
posal, with the concurrence of your technical representative, for the furnishing
of necessary labor, material and facilities to perform the following tasks:

A. Revise Part I, "IIS System Requirements" to incorporate design
    modifications which are the result of the Center critique and
    which are not a part of the current Contract Statement of Work.
    Included are the following modifications:

    1. Perform the work to modify the IIS System Design as
        presented in the prepublication issue of the report
        "NPIC II, System Requirements" (Part 1, Volumes 1
        and 2) to:

        (a) Provide an IIS real-time program which will
             operate as one of three real-time programs
             under RUM.

        (b) Reflect additional consideration of software
             reliability.

    2. Revise the textual and graphical material of the pre-
        publication issue of the report "NPIC IIS, System
        Requirements" to:

        (a) Incorporate the results of A.1.(a) and (b).

        (b) Incorporate other substantive and editorial
             changes (excluding analysis or re-design) in
             accordance with the Center critique.

Subj.: Proposal for Additional Engr. Effort
22 September 1967
Page -2-

Approved For Release 2002/01/29 : CIA-RDP78B04747A001900040007-1

3. The delivery date for this material to be established
    as November 15, 1967.

B. Development of Software Macro - level Flow Diagrams

1. Perform the work to develop Macro-level flow diagrams
    supplemental to software general performance speci-
    fications. Specifically, the level of detail in these
    diagrams will encompass graphical representation of
    major decision points; entry and exit points to the
    IIS real-time program; and file, table and control
    interfaces.

2. The delivery date for this material to be established
    as November 1, 1967.

We propose to perform the above-listed tasks as a cost plus award fee
addendum to Task Order 17 for a total estimated cost and fee of ████████   25X1A
(Attachment A, Cost.Analysis).

Correspondence or communications relating to this proposal may be
directed to the writer or ████████████████   25X1A

Very truly yours,

████████████████████████████████   25X1A
